

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I have a wireless phone for emergency purposes only and this is the cheapest plan I could find. I may not even use my prepaid phone card, yet you want to tax it???? Under the flat fee proposal you are considering, people who make few (OR NO) long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume (OR NO-VOLUME) and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I have my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Nancy Renkert
